CURA'S RESEARCH MODEL

- **Contextualized Research**
  - Policy is changed and shaped by actionable research and advocacy/organizing.

- **Reparative**

- **Community Centered**
  - Advocacy/organizing utilizes actionable research to further their issue or campaign or build narrative significant to community.

- **Reparative**

- **Policy**

- **Actionable Research**
  - Research for the purpose of building community power around issues and campaigns that are significant to them.
RACIAL EQUITY FRAMEWORK

Solutions that address a systemic inequity

Solutions that are commensurate with the cause of inequity

Solutions developed in collaboration with affected communities
